DNV is a global provider of services for managing risk. Established in 1864, DNV is an independent foundation with the objective of safeguarding life, property and the environment. DNV comprises 300 offices in 100 countries, with 6,400 employees.

DNV recognizes that all management system certificates are not equal, and the fact is that DNV's certificates are among the most respected available. DNV is well-equipped to satisfy the needs of the most demanding customers.

With more than 50,000 management system certificates issued throughout the world and in excess of 4,900 in North America, DNV is one of the world's top certification bodies for management system certification services.

DNV is one of the few global certification bodies actively involved in the development of new international standards, such as OHSAS 18001 and the Social Accountability standard SA8000.

In order to serve the local needs of the markets in which we operate, DNV is accredited by 22 of the world's most respected accreditation bodies.

Appointed as a Notified Body for 12 European Directives, we provide advisory and compliance services to assist companies in being able to apply the CE Mark to their products.
