**Multisorb Technologies** provides leadership, innovation, and solutions utilizing active packaging components to manage moisture, oxygen and/or hydrocarbons in healthcare product packaging to improve product stability.

As a single-source provider of a broad range of sorbent materials, devices, and related automated insertion equipment, Multisorb supports its sorbent products utilizing SimulSorb and SimulOx pseudo-empirical modeling programs to help predict physical and chemical stability outcomes for healthcare products in their packaging.

*From calculations through operations*, Multisorb is there for you with a seasoned team of packaging professionals, chemists, biochemists, and engineers, providing skilled resources to understand and solve virtually any product stability issues.

The introduction of a one-piece polypropylene shovel more than 30 years ago established **Remco** Products as an industry pioneer. Today, Remco maintains its presence as a trusted supplier to the food processing, pharmaceutical, jansan, safety, and material handling industries. It provides a large selection of color-coded quality plastic products to these distinct markets.

With today's increasing focus on hygiene and cross-contamination issues, Remco has taken the approach of proactive product development to help companies comply with stringent HACCP regulations and guidelines. The color-coded tools from Remco are made from FDA-approved materials and ISO-certified, providing the ultimate step in quality assurance and safety for the various industries.

Remco not only supplies the highest in quality; it maintains personal integrity and continues to increase customer loyalty by expanding inventories and maintaining a well-earned reputation for excellent customer service. Recognized as a world leader, Remco remains dedicated to providing innovative products through its extensive network of distributors.

Remco's wide selection of products includes polypropylene shovels, scoops, scrapers, kart tubs, and mixing paddles in addition to a line of color-coded metal detectable products. Remco also offers the Vikan hygiene system<sup>®</sup> of brooms, brushes, squeegees, pails, and handles.
